Head Master's Message

As we age, I sometimes think, we see as much behind our eyes as we do in front of them. I can see the past year, sketched in images and words in this wonderful Yearbook, as I reflect on the past and look into the future. Our past informs the steps we next take, but it doesn't construct guardrails. It offers possibilities and wonders, built on accomplishments that belong to us and to others.

This is our first student-led Yearbook, driven by our Deputy Head Student, Chloe Terrattaz, and her team of enthusiasts, guided by the wisdom and wit of Alice Lin, our Marketing Manager. It is full of memories: some will make you laugh; others will make you wonder; still more will make you reflect. All of the memories trace the development of our school, always growing in confidence, clear in its identity as one of the best academic schools in the country, and determined to explore every opportunity we can find for our young people.

I am very proud of the efforts of our pupils and staff. I know that you, too, will be proud when you see this glimpse into our year, knowing that this is how our pupils see themselves, in our school, ready to take on the world!
