Our School

Founded in 2016, Harrow International School Shanghai is a selective, co-educational, private day school offering an English-medium education from Early Years to Year 13. We adapt the 450-year educational tradition of Harrow School London to our international setting in Shanghai. Our predominantly Asian student body is highly diverse and bilingually proficient. All graduates progress to higher education at universities around the world.

Our Vision

Educational Excellence for Life and Leadership

Our Values

Courage, Honour, Humility, Fellowship

Curriculum

I/GCSE Years 10 & 11

Depending on their language ability, students will study First or Second Language English, with First Language learners often also completing English Literature. Students demonstrating strong ability in Mathematics may take their IGCSE Mathematics exam in the end of Year 10.

Extension

Our academic programme is enriched by a diverse co-curricular offering; our students are able to take advantage of countless musical, sporting, dramatic, and literary opportunities, including more than 40 extra-curricular activities (ECAs), and frequently participate in academic competitions within and beyond China. Students are encouraged to take on leadership roles such as House Captains, Monitors, sports captains, and members of the Student Council, and are expected to make a contribution to their community through voluntary or charitable endeavours; graduates of our Leadership and Service programme will be awarded with our own Harrow Diploma which recognises the achievements within school and beyond.

A-Level Years 12 & 13

3-4 Choices

15 A-Level Subjects

Art and Design	Economics	Mathematics
Biology	English Literature	Music
Chemistry	Further Mathematics	Physical Education
Chinese	Geography	Physics
Computer Science	History	Psychology

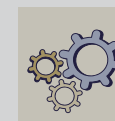

Optional

Extended Project Qualification (EPQ) Years 12 & 13

5000-word
independent
research paper

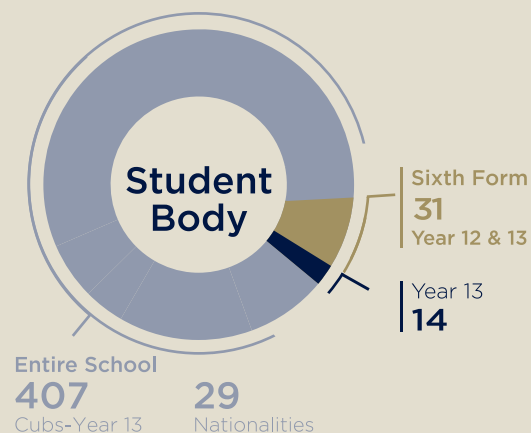

OR

A design project
with 1000-word
description

Scholarship

Our school offers several highly-competitive scholarships which are awarded to students who demonstrate significant academic, sporting, or creative potential. Students also compete for Academic Excellence Awards, given to students who consistently reach the highest standards within their cohort, as well as Endeavour Awards, which recognise outstanding progress. Our students regularly achieve distinction in academic competitions at city, regional, national, and international levels. Individual students have also achieved among the highest IGCSE and A-Level results in China and, in some subjects, among the highest results worldwide.

I/GCSE

Grading

We neither rank students nor calculate GPA. A-Levels, Cambridge IGCSEs, and EPQs are graded on an A*-U scale, with an A* representing highly exceptional achievement, and a 'U' indicating a failure to meet minimum standards. For International AS-Levels, our students are graded on an A-U scale, the scores from which can be carried through into learners' A-Level studies. Please note that a handful of our students study Pearson I/GCSEs, which are graded on a 9-1 scale, with 9 as the highest grade.

Student progress is continuously assessed formatively and summatively; students receive an overall grade at the end of each term, aligned to I/GCSE or A-Level standards, which reflects their performance over the course of the whole term. When evaluating our students, additional weight should be applied to grades based on their achievements in public examination results which, in our transcripts, is usually indicated in Term 3 of Year 11 (for I/GCSE) and Term 3 of Year 12 (for AS-Level). Predicted grades are determined by internal assessments and are supported, in most subjects, by AS-Level results.
